Summary

Senior Full-Stack Developer with 20+ years building production web applications using Vanilla, Angular, React, TypeScript, and modern UI architecture. I help teams deliver accessible, maintainable interfaces by combining deep frontend expertise with UX/UI insight and cross-functional leadership. Backed by AWS certification and full-stack context from Node.js and REST API integration.

Experience

Dualboot Partners – Senior Frontend Developer

2019 – Present

- Build and maintain production web applications using React, TypeScript, Redux, React Query, styled-components, and REST APIs—optimizing component architecture and client-side performance.
- Translate product and design requirements into responsive, accessible, and maintainable user interfaces.
- Contribute to frontend architecture, code reviews, automated testing, Git workflows, CI/CD delivery, and performance improvements.
- Integrate applications with backend services and cloud environments while collaborating with product, design, backend, and DevOps teams.

UTEC – Frontend Developer

2017 – 2019

- Developed responsive web interfaces and interactive experiences for institutional and educational initiatives.
- Worked across UX/UI requirements, implementation, and delivery.

Kuack Media Group – Full Stack & Designer

2008 – 2016

- Developed and improved web products with a strong focus on usability, interaction design, and frontend implementation.

Collaborated across design and engineering throughout long-term product evolution.

Easylabs, Global NET, Pratt Comunicación, Live Interactive, Clicking – Web, Interactive & Graphic Design

2001 – 2008

Skills

Frontend: React, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Sass, Tailwind CSS, Styled Components, Redux, React Query

Backend & APIs: Node.js, PHP, Python, Django, REST APIs

Data: MySQL, MongoDB

Cloud & Delivery: AWS, Git, GitHub, CI/CD, Linux/Unix shell

Testing & Quality: Jest, React Testing Library, Playwright

Product & Design: UX/UI, usability, accessibility, Figma, Sketch, Adobe XD

Education

Self-taught software developer and web/graphic designer.

Architecture studies — Universidad de la República (Ante III completed).

Projects

Woowanted — JavaScript, PHP, MySQL

Designed and developed a full-stack web platform, including the user interface, application logic, relational data, and deployment.
